Profile

Flutter mobile developer with 1+ year of hands-on experience building cross-platform applications for Android and iOS. Proven ability to ship complete, production-ready apps — including a full e-commerce platform and a real-time social media app. Skilled in clean architecture, BLoC/Cubit state management, Firebase backend integration, RESTful APIs, and polished UI/UX design. Brings 2 years of experience as a Teaching Assistant at Pharos University, strengthening technical communication and mentoring skills.

Flutter Projects

Shop App – Full E-Commerce Mobile Application

A complete, production-ready e-commerce app built with Flutter. Tech: Flutter, Dart, REST APIs, BLoC/Cubit.

- Integrated RESTful APIs for dynamic product listings, categories, cart, and user data
- Built Favorites system and full Cart with local persistence and real-time sync
- Custom theming system supporting light/dark mode with consistent design language
- State management using BLoC/Cubit for a reactive, scalable, and testable architecture
- Features: product search, filtering, order history, user authentication, and profile management

Mini-Gram – Real-Time Social Media App

An Instagram-inspired social app built with Flutter and Firebase. Tech: Flutter, Firebase, Clean Architecture, Localization.

- Firebase backend: Authentication, Firestore, Cloud Storage, and Cloud Functions
- Real-time stream chat with reply-to-message functionality using Firestore streams
- Push notifications for messages, likes, and follow activity
- Search functionality to discover users and content
- Favorites system for saving and organizing posts
- In-app notifications screen with real-time stream updates
- Full localization support (Arabic & English) using flutter_localizations
- Clean Architecture with strict separation of data, domain, and presentation layers
- Features: posts, likes, follow system, and smooth custom animations

Admin & User Panel App (In Progress)

A dual-panel Flutter application with role-based access for Admin and User flows.

- Role-based access control with distinct Admin and User interfaces
- Admin panel: user management, content moderation, and analytics dashboard
- User panel: personalized experience with full CRUD operations
- Built with clean architecture, scalable state management, and Firebase integration

Professional Experience

Teaching Assistant

Pharos University – Faculty of Computer Science

- Appointed as Teaching Assistant in the CS department, covering Flutter mobile development and programming fundamentals
- Delivered lab sessions on Dart, Flutter widgets, state management, and app architecture principles
- Guided students through building real mobile projects, providing hands-on Flutter coaching
- Evaluated student work and provided structured feedback to strengthen coding skills and best practices
- Developed supplementary exercises and study materials tailored to mobile development topics

Sep 2024 – Present
Alexandria, Egypt

Deep Learning Intern

Najah Now – Sponsored by ITIDA

- Worked on Natural Language Processing (NLP) projects using deep learning algorithms
- Built and evaluated NLP models for text classification and analysis tasks
- Collaborated with team to optimize model performance and accuracy metrics

08/2022 – 10/2022
Alexandria, Egypt

Web Development Intern

Najah Now – Sponsored by ITIDA

- Developed and optimized front-end and back-end web applications
- Debugged and improved application functionality and user experience
- Collaborated with developers to implement new features

05/2022 – 07/2022
Alexandria, Egypt

IT Intern

Banque Misr – IT Department

- Gained experience in IT support, systems management, and technical troubleshooting
- Managed employee data and assisted with internal IT systems and workflows

05/2021 – 07/2021
Alexandria, Egypt

IT and HR Intern

Housing and Development Bank – IT Department

- Assisted with IT infrastructure tasks, employee data management, and customer service
- Contributed to improving customer service protocols and response times

08/2021 – 10/2021
Alexandria, Egypt

Education

Bachelor of Computers and Data Science

Alexandria University CGPA: 3.429

09/2019 – 05/2023
Alexandria, Egypt

Skills

Technical Skills: Flutter & Dart (1+ year) | State Management (BLoC, Cubit, Provider) | Firebase (Auth, Firestore, Storage, Cloud Functions) | RESTful APIs & Dio | Clean Architecture | Real-time Streams | Push Notifications | Localization | Git & GitHub | Android & iOS | Java | Python | HTML | CSS | SQL | OOP | Unit Testing

Soft Skills: Collaboration | Problem-solving | Communication | Time Management | Adaptability | Attention to detail | Mentoring

Additional Skills: Public Speaking | Writing | Research | Teamwork | Analytical Thinking | Documentation
