PROFILE

Flutter mobile developer with 2+ years of hands-on experience building cross-platform applications for Android and iOS. Proven ability to ship complete, production-ready apps — including a full e-commerce platform, a real-time social media app, a Bitcoin financial dashboard, and a full-stack task management system. Skilled in clean architecture, BLoC/Cubit state management, Firebase backend integration, RESTful APIs, and polished UI/UX design. Brings 2 years of experience as a Teaching Assistant at Pharos University, strengthening technical communication and mentoring skills.

FLUTTER PROJECTS

Shop App – Full E-Commerce Mobile Application

Tech: Flutter, Dart, REST APIs, BLoC/Cubit

- Integrated RESTful APIs for dynamic product listings, categories, cart, and user data
- Built Favorites system and full Cart with local persistence and real-time sync
- Custom theming system supporting light/dark mode with consistent design language
- State management using BLoC/Cubit for a reactive, scalable, and testable architecture
- Features: product search, filtering, order history, user authentication, and profile management

Mini-Gram – Real-Time Social Media App

Tech: Flutter, Firebase, Clean Architecture, Localization

- Firebase backend: Authentication, Firestore, Cloud Storage, and Cloud Functions
- Real-time stream chat with reply-to-message functionality using Firestore streams
- Push notifications for messages, likes, and follow activity
- Search functionality to discover users and content
- Favorites system for saving and organizing posts
- In-app notifications screen with real-time stream updates
- Full localization support (Arabic & English) using flutter_localizations
- Clean Architecture with strict separation of data, domain, and presentation layers
- Features: posts, likes, follow system, and smooth custom animations

Bitcoin Dashboard App

Tech: Flutter, fl_chart, Clean Architecture, Local JSON

- Built a responsive financial dashboard using Flutter
- Implemented interactive charts using fl_chart (Bitcoin price trends & forecasting)
- Designed KPI-based UI for key metrics (Price, Change, Volume)
- Developed animated bottom navigation using PageView
- Structured project using clean separation of data models and UI layers
- Integrated local JSON data parsing for dynamic visualization

TaskFlow – Full-Stack Task Management App

Tech: Flutter, Firebase, Hive, BLoC/Cubit, Clean Architecture

- Built a full-stack task manager with Firebase Firestore for cloud sync and Hive for offline-first local storage
- Role-based task assignment with user and admin flows

- Real-time task updates using Firestore streams and BLoC state management
- Create, update, delete, and filter tasks by status (To-Do, In Progress, Done)
- Push notifications for task deadlines and assignment events
- Offline support using Hive — tasks persist and sync when connection is restored
- Clean Architecture with strict layer separation (data, domain, presentation)
- Features: task priorities, due dates, search, user profiles, and activity feed

Admin & User Panel App (In Progress)

Tech: Flutter, Firebase, Clean Architecture

- Role-based access control with distinct Admin and User interfaces
- Admin panel: user management, content moderation, and analytics dashboard
- User panel: personalized experience with full CRUD operations
- Built with clean architecture, scalable state management, and Firebase integration

PROFESSIONAL EXPERIENCE

Teaching Assistant Sep 2024 – Present Pharos University – Faculty of Computer Science | Alexandria, Egypt

- Appointed as Teaching Assistant in the CS department, covering Flutter mobile development and programming fundamentals
- Delivered lab sessions on Dart, Flutter widgets, state management, and app architecture principles
- Guided students through building real mobile projects, providing hands-on Flutter coaching
- Evaluated student work and provided structured feedback to strengthen coding skills and best practices
- Developed supplementary exercises and study materials tailored to mobile development topics

Deep Learning Intern 08/2022 – 10/2022 Najah Now – Sponsored by ITIDA | Alexandria, Egypt

- Worked on Natural Language Processing (NLP) projects using deep learning algorithms
- Built and evaluated NLP models for text classification and analysis tasks
- Collaborated with team to optimize model performance and accuracy metrics

Web Development Intern 05/2022 – 07/2022 Najah Now – Sponsored by ITIDA | Alexandria, Egypt

- Developed and optimized front-end and back-end web applications
- Debugged and improved application functionality and user experience
- Collaborated with developers to implement new features

IT Intern 05/2021 – 07/2021 Banque Misr – IT Department | Alexandria, Egypt

- Gained experience in IT support, systems management, and technical troubleshooting
- Managed employee data and assisted with internal IT systems and workflows

IT and HR Intern 08/2021 – 10/2021 Housing and Development Bank – IT Department | Alexandria, Egypt

- Assisted with IT infrastructure tasks, employee data management, and customer service
- Contributed to improving customer service protocols and response times

EDUCATION

Bachelor of Computers and Data Science

CGPA: 3.429

Alexandria University | 09/2019 – 05/2023 | Alexandria, Egypt

SKILLS

Technical Skills: Flutter & Dart (2+ years) | State Management (BLoC, Cubit, Provider) | Firebase (Auth, Firestore, Storage, Cloud Functions) | RESTful APIs & Dio | Hive (local storage) | fl_chart | Clean Architecture | Real-time Streams

| Push Notifications | Localization | Git & GitHub | Android & iOS | Java | Python | HTML | CSS | SQL | OOP | Unit Testing

Soft Skills: Collaboration | Problem-solving | Communication | Time Management | Adaptability | Attention to detail | Mentoring

Additional Skills: Public Speaking | Writing | Research | Teamwork | Analytical Thinking | Documentation

LANGUAGES

Arabic – Mother tongue

English – Professional Working Proficiency

CERTIFICATES

Web Development – Najah Now, Sponsored by ITIDA

Deep Learning – Najah Now, Sponsored by ITIDA

IT – Banque Misr

IT and HR – Housing and Development Bank
